In the educational world, Engineering is the 'buzzword'. There has been a rise in the demand for Engineers. In light of this, setting up new institutions have become imperative and much stress has been laid on the sector. Alongside management professionals, Engineers are regarded as important part of a system responsible for boosting the economy. Eyeing major opportunity, both the government and educational leaders are trying their best to introduce all-new innovations to the curriculum of Engineering education. While much credit goes to the government-funded autonomous institutions like the Indian Institutes of Technology and the National Institutes of Technology for doing their best to give a fillip to education in the Engineering field, private colleges are not few and far behind. Armed with the best of world- class institutions, they are continuously trying to evolve to impart quality Engineering education.
