

Ready Reckoner 2022

Choosing The Right Institute

By Mekhla Sinha, Executive Director, GHRDC

After schooling, every student goes through the most crucial period of life during which he/she has to decide on a career path. Today, the educational institutions in the country offer plethora of career choices and options to the students to pursue their career, and this has actually led to a greater confusion among young minds. However, a career in Management has always been one of the favourite choices for many aspirants.

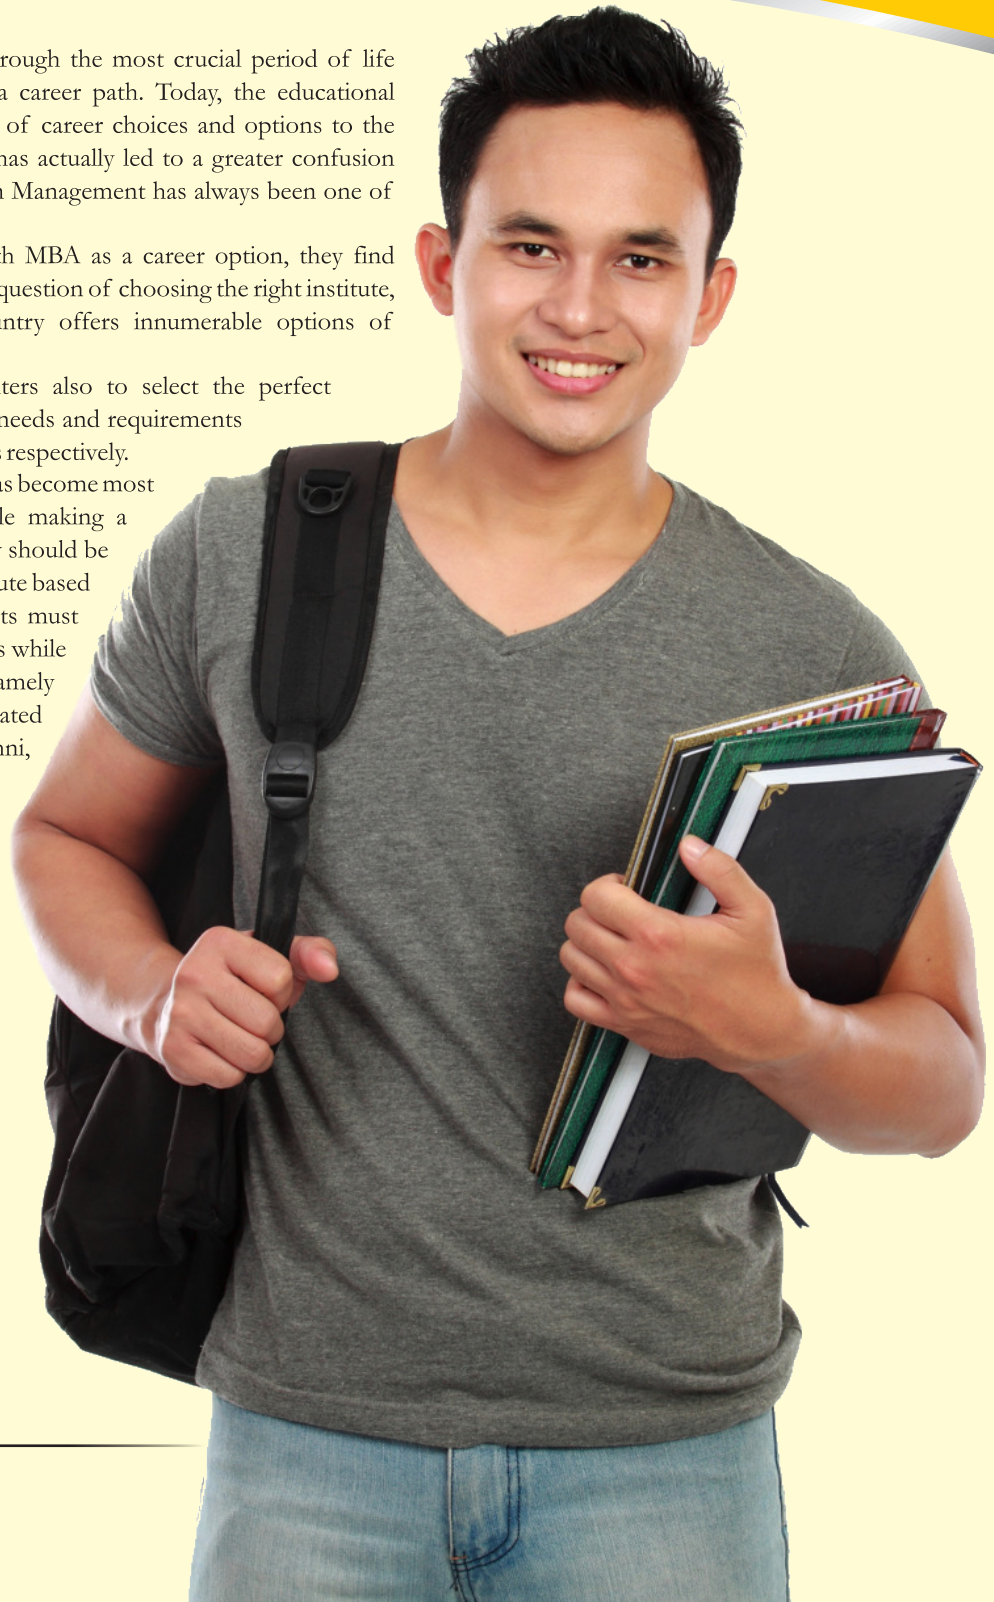

Once students decide to go ahead with MBA as a career option, they find themselves dealing with another pertinent question of choosing the right institute, especially in a scenario where our country offers innumerable options of educational institutions.

It is indeed a crucial task for recruiters also to select the perfect educational institution according to their needs and requirements for hiring during final placements/ projects respectively.

Keeping the above scenario in mind, it has become most imperative for students to be alert while making a choice in selecting the right institute. They should be careful and alert while deciding on an institute based on their needs and requirements. Students must keep in mind certain important parameters while deciding to join a management institute, namely unique pedagogy, campus culture, updated curriculum, faculty, infrastructure, alumni, placements, etc. Students and their families also need to be updated regarding factors like hostel facilities, cost of education, programmes offered, etc. to help them decide on the right institute.

With this background, CSR-GHRDC B-School Survey 2022 has come up with the “Ready Reckoner” as an easy reference tool to assist the students and recruiters.
