Education for every student must come with a motive of learning and learning to do what interests him. However, the unfolding of this realisation truly happens when there is space for creative thinking within the curriculum schedule of any educational institution, wherein a student is given complete freedom to think and execute innovative ideas and solutions in the form of participation in events, club activities and many such other opportunities. The demand for young Indian students has also increased remarkably in the last few decades. The time is for them to come out of their comfort zone, take a plunge and make wise decisions for themselves.
